The following special rules for front yards shall apply where front yards are required:

8-601 Where on the effective date of this Ordinance, forty percent (40%) or more of a block face was occupied by two (2) or more buildings, then the front yard is established in the following manner; otherwise the required front yard for the district shall apply. Where no intersection street occurs for a distance of twelve hundred feet (1,200') in either direction, measured from the mid-point of the street frontage of the lot or tract in question, the forty percent (40%) shall apply to the distance along the frontage.

(1) The front yard of a lot in a block having not more than a ten foot (10') variation in the depth of existing front yards shall be an average of those yards existing on either side.

(2) Where Subsection 8-601(1) does not apply and a lot is within one hundred feet (100') of a building on each side, then the front yard line of a lot is a line drawn parallel to the front lot line from the point of intersection of a line connecting the closest front corners of the two adjacent buildings and the side yard line closest to the front lot line.

(3) Where neither Subsection 8-601(1) nor Subsection 8-601(2) applies, nor the lot is within one hundred feet (100') of an existing building on one side only, then the front yard is the same as that of the existing adjacent building, except that a required front yard need not exceed forty feet (40').

NONCONFORMING USES SECTION 9-100

Nonconforming Uses Are Required

9-101 A nonconforming use is a use of a premise which was lawfully established and maintained at the time of the passage or amendment of this Ordinance, but which, because of the application of this Zoning Ordinance to it, does not conform to the regulations of the Zoning District in which it is located. A nonconforming building, or a nonconforming portion of a building, shall be deemed to constitute a nonconforming use of the land upon which it is located.

9-102 The use of a lot of record which is nonconforming because of lot size shall be regulated by Subsection 11-103.

9-103 Nonconforming uses are regulated as follows:

(1) They may be continued.

(2) They may not be expanded nor structurally altered, except as may be required by law or ordinance; however, such uses in all districts may be extended throughout such portions of a building as are arranged or designed for such use as of the effective date of this Ordinance.

(3) If a nonconforming use or structure is damaged or destroyed to an extent of more than fifty percent (50%) of its fair market value by fire, explosion, act of God, or the public enemy, then any restoration or new construction shall be for a permitted or conforming use. The computing of a percentage of damage or destruction to a nonconforming use composed of a group in individual structures which are principal buildings shall be based on fair market value of the entire development comprising the group and not the individual structure.

9-104 For the purpose of regulating changes of nonconforming uses, the zoning districts are placed in the following order, starting with the most restrictive district, the F-1 Single Family Dwelling District, and ending with the least restrictive district, the PD Planned Development District:

- (1) F-1 Single Family Dwelling District
- (2) F-2 Single Family Dwelling District
- (3) MF Multiple Family Dwelling District
- (4) F-3 Single Family, Multiple Family, and Commercial /Retail District
- (5) B Beach District
- (6) CR Commercial / Retail District
- (7) PD Planned Development District

9-105 A nonconforming use may be changed to a conforming use as set forth in Subsection 9-104, subject to other regulations of this Ordinance. If a conforming use, it shall not be changed back to a nonconforming use.

9-106 If a nonconforming use of any structure or premise is discontinued for a period of six (6) months, the use of the same shall thereafter conform to the requirements of the district in which it is located. The Board of Adjustment shall have the power to grant an extension not to exceed six (6) calendar months when warranted by evidence presented.

BOUNDARIES OF DISTRICTS SECTION 10-100

Rules where Uncertainties May Arise

Where uncertainties exist with respect to the boundaries of the various districts as shown on the official Zoning District Map, the following rules shall apply:

10-101 On subdivided property, a plat of which is recorded in the County Clerk's office of Galveston County on the effective date of this Ordinance, the district boundaries are intended to be streets, alleys, or property lines. Where the districts designated on the official Zoning District Map are bounded approximately within one hundred feet (100') of a street, alley, or property line, the street, alley, or property lines nearest the district boundary shall be constructed to be the boundary of the district. If a boundary is not, by use of the map scale, within one hundred feet (100') of a street, alley, or property line, the boundary shall remain as shown by the map scale, except as may be varied in accordance with Subsection 10-102 below.

10-102 Where a district boundary traverses a large parcel of land or acreage reserve in a recorded subdivision, such large parcel or acreage reserve having been divided by metes and bounds without indication upon the recorded plat of same, or where it may hereafter be divided into blocks or lots, the district boundaries shall be construed to be the street, alley, or property line resulting from such subdivision nearest to the district boundary shown on the Official Zoning District Map, provided the district boundary is not more than one hundred feet (100') from its location on the Official Zoning District Map.

10-103 In unsubdivided property, the district boundaries on the Official Zoning District Map shall be determined by use of the map scale appearing on the map; and where the district boundaries on the Official Zoning District Map are approximately to the property lines of unsubdivided property, the district boundary line shall be construed to be the property line if not varied more than one hundred feet (100') from its location on the Official Zoning District Map.

10-104 Boundaries indicated as approximately following platted lot lines shall be construed as following such lot lines.

10-105 Boundaries indicated as approximately following city limit lines shall be construed as following the city limit line.

10-106 Boundaries indicated as following shore lines shall be construed to follow such shore line, and in the event of change of shore line, shall be construed as moving with the actual shore line; boundaries indicated as approximately following the center line; boundaries indicated as approximately following the center line of streams, creeks, gullies, or canals shall be construed as following such center line.

**SPECIAL PERMITS
SECTION 13-100**

13-101 Certain Uses May Locate by Special or Specific Use Permit

The City Council of the City of Jamaica Beach may, after public hearing and proper notices to all parties affected, and after recommendation of the Planning and Zoning Commission containing such requirements and safeguards as are necessary to protect adjoining property, authorize the location of any of the following uses in the specified districts.

The purpose of such hearing by the City Council shall be to determine that the granting of the special permit will not adversely affect the character and appropriate use of the area or neighborhood in which it is proposed to locate; provides adequate off street parking; will not substantially depreciate the value of adjacent and nearby properties for use in accordance with the regulations of the zoning district in which they are located; will be in keeping with the spirit and intent of this Ordinance; will not adversely affect the implementation of the Comprehensive Plan; and will not adversely affect vehicular and/or pedestrian traffic; will not create flood, erosion, noise, glare, odors, fire, or other hazards; will not adversely affect public utilities, public health, public safety, and the general welfare.

All applications for special permits shall be submitted with plans, in sufficient detail to determine the proposed use of the entire premises as well as all buildings and structures, to the Planning and Zoning Commission.

13-102 Special Uses are Enumerated

Uses for which special permits may be secured and the districts within which such uses may be permitted are listed below. The granting of a special permit shall be subject to all conditions and safeguards prescribed in this Zoning Ordinance and as may further be prescribed by the City Council or Planning and Zoning Commission. In authorizing the location of any of the uses listed in Subsection 11-701, the City Council may impose such reasonable development standards as the conditions and location indicate as being necessary for the protection of immediate properties in the neighborhood from noise, vibration, dust, dirt, smoke, fumes, odor, explosion, glare, waste, offensive view, or other undesirable or hazardous conditions.

The Planning and Zoning Commission may recommend, and the City Council may establish such conditions of approval as are necessary to assure that the proposed land use meets the criteria set forth in this Ordinance which may include requirements for special yards, lot sizes, open spaces, buffers, fences, walls, or screening; requirements for installation and maintenance of landscaping or erosion control measures; requirements for street improvements, regulation of vehicular ingress and egress, and traffic circulation; regulation of signs, regulation of hours or other characteristics of operation; establishment of development schedules or time limits for performance or completion; and such other reasonable conditions as the City Council deems necessary to insure compatibility with surrounding uses and to preserve the public health safety and welfare.

No special, Conditional, or Specific Use Permit may be granted unless the applicant, owner or grantee of the Permit shall accept and agree to be bound and comply with the written requirements of the Permit as attached to the site plan drawing and approved by the City Council. A Special, Conditional or Specific Use Permit shall remain valid:

- (1) for one (1) year with a two (2) year renewal option that may be granted by the City Administrator and Zoning Official if there has been no substantial change in the usage;
- (2) until the property is rezoned;
- (3) another permit is approved for the site;
- (4) the use of the premises changes and such a change is authorized by the issuance of a new permit.

Non-Substantial Changes: Changes deemed to be non-substantial changes by the Zoning Official may be permitted by the City Administrator.

A permit is issued to the property owner, applicant or grantee, not to the property.

The following is a partial list of some Special Uses:

- (1) Any use of a public building or utility erected or used by the City, permitted in any district.
- (2) Country Clubs (private), with or without golf courses, or private golf courses, permitted in any district except F-1 and F-2.

- (3) Indoor or outdoor amusement centers permitted in CR and PD.
- (4) Hospitals (general care), permitted in any district except F-1.
- (5) Institutions of a religious or philanthropic nature other than churches, permitted in CR.

13-103 Classification of New and Unlisted Uses

It is recognized that new types of land use will develop and forms of land use not anticipated may seek to locate in the City of Jamaica Beach. In order to provide for such changes and contingencies, a determination as to the appropriate classification of any new or unlisted form of land use shall be made as follows:

(1) Building Official shall refer the question concerning any new or unlisted use to the Planning and Zoning Commission requesting an interpretation of the zoning classification into which such use should be placed. The referral of the use interpretation question shall be accompanied by a statement of facts listing the nature of the use and whether it involves dwelling activity, sales, processing, type of product, storage and amount and nature thereof, enclosed or open storage, anticipated employment transportation requirements, the amount of noise, odor, fumes, dust, toxic material and vibration likely to be generated and the general requirements for public utilities such as water and sanitary sewer.

(2) The Planning and Zoning Commission shall meet with the parties at interest and shall consider the nature and described performance of the proposed use and its compatibility with the uses permitted in the various districts and determines the zoning district or districts within which use should be permitted.

(3) The Planning and Zoning Commission shall transmit its findings and recommendations to the City Council as to the classification proposed for any new or unlisted use. The City Council shall by resolution approve the recommendation of the Planning and Zoning Commission or make such determination concerning the classification of such use as is determined appropriate,

SPECIAL EXCEPTIONS AND VARIANCES SECTION 14-500

14-501 Granting of Special Exceptions

The Board of Adjustments is hereby empowered to permit the following exceptions provided its action is in harmony with the general purpose and intent of this Ordinance and does not injure the health, safety, morals, or the general welfare of the occupants of nearby properties.

- (1) Permit such modifications of the height, yard area spacing and parking regulations as may be necessary to secure appropriate development of a parcel of land of such unusual topography or restricted area and shape that it cannot be appropriately developed without such modification.
- (2) Permit such modification of the parking regulations as may be warranted by the unusual character of a proposed use.
- (3) Permit the use of a lot or lots in a residential district, which lot (or lots) is adjacent to a commercial or industrial district, even if separated by an alley or by a street, for parking of passenger cars under such safeguards and conditions as may be desirable to protect the more restricted adjacent and nearby properties, provided no other business use is made of the lot.
- (4) Grant a permit for the extension of a use into an adjoining district, where such extension would constitute a non-conforming use and where the lot upon which the existing use is situated extended into the adjoining district and is in single ownership at the time this Ordinance is adopted.
- (5) Permit the reconstruction of a building occupied by a non-conforming use, provided such reconstruction does not prevent the return of such property to a conforming use.

(6) Determine in cases of uncertainty, the classification as to the district of a use not specifically named in this Ordinance, provided however that such use shall be in keeping with uses specifically named in the district regulations.

14-502 Granting of Variances

The Board of Adjustments is hereby authorized upon appeal from the decision of the Zoning Official to grant in specific cases such variance from the terms of this Ordinance as will not be contrary to the public interest, where owing to special conditions, a literal enforcement of the provisions of this Ordinance will result in unnecessary hardship and so that the spirit of this Ordinance shall be observed and substantial justice done.

14-503 Limitations of Special Exceptions and Variances

Any special exception or variance authorized by the Board of Adjustment shall constitute authority to authorize the issuance of a zoning permit or certificate of occupancy, as the case may be, if applied for within one hundred-twenty (120) days from the date of favorable action on the part of the Board of Adjustment unless such Board of Adjustment authorizes a longer period. If the zoning permit or certificate of occupancy shall not have been applied for within one hundred-twenty (120) day period, or such extended period as the Board of Adjustment may have authorized, then the grant of the special exception or variance shall terminate. Such termination shall be without prejudice to a subsequent application to said Board of Adjustment in accordance with the rules and regulations regarding applications. No applications to the Board of Adjustment shall be allowed on the same piece of property prior to the expiration of six (6) months from a ruling of the Board of Adjustment on any application to such body unless other property in the same block or within five hundred feet (500') thereof, within such six (6) months period, has been altered or changed by a ruling of the Board of Adjustment, in which case such a change of circumstances shall permit the allowance of such an application but shall in nowise have any force in law to compel the Board of Adjustment, after a hearing, to grant any subsequent application, but such application shall be considered on its merits as in all other cases.

SECTION 14-600

Vote Necessary for Decision of Board of Adjustment

The concurring vote of four (4) members of the Board of Adjustment shall be necessary to reverse any order, requirement, decision, or determination of the Zoning Official or to decide in favor of the applicant on any matter upon which it is required to pass under this Ordinance, or to effect any variation in this Ordinance.

or portion thereof, on which special exception or variance is desired, and to all other persons deemed by the Board of Adjustment to be affected thereby; such owners and persons shall be determined according to the last approved tax role of the City of Jamaica Beach. Such notice may be served by depositing the same, properly addressed and postage paid, in the United Postal Service. Where property lying within two hundred feet (200') of the property proposed to be changed is located in territory which was annexed to the City after the final date for making the renditions which are included on the last tax toll, at least fifteen (15) days notice of the time and place of such hearing shall be published once in a newspaper of general circulation in the City of Jamaica Beach.

14-906 The City Council shall not act upon such motion or petition within thirty (30) days from the date the final report of the Planning and Zoning Commission was submitted to the City Council.

14-907 Protests

In case of a protest against any such amendment, supplement, change, or repeal of the regulations, restrictions, and boundaries herein established, filed with the Zoning Official and signed by the owners of twenty percent (20%) or more, either of the area of the lots included in such proposed change, or of those immediately adjacent in the rear thereof extending two hundred feet (200') therefrom, or of those directly opposite thereto extending two hundred feet (200') from the street frontage of such opposite lots, such amendment, supplement, change, modification, or repeal shall not become effective except by the favorable vote of three fourths (3/4) of all the members of the City Council.
